

YOUR NEW ZEALAND MANUFACTURED ORGANIC SOLUTION  
TO A CLEAN GREEN ENVIRONMENT

## Bio-Zyme Multipurpose

Enzyme based cleaner/sanitiser\* (\*only under MPI Approvals) | Non Fragrant

An environmentally-preferable cleaner, Bio-Zyme Multipurpose is the safer and healthier alternative to toxic cleaners, solvents, caustics and bleaches.

Bio-Zyme Multipurpose cleans floors, walls, benches and all food processing equipment. It cleans more than just visible surfaces, but also cleans and deodorises floor waste pipes and drains. Works very effectively through foaming or fogging application for greater coverage in food processing areas. May be used for cleaning large processing rooms provided the room can be divided into distinct areas. No edible product or packaging may be present in the area during cleaning and there can be no possibility of contamination of product or packaging material as a result of cleaning. When using as sanitiser\* (\*only under MPI Approvals) contact time 1 minute, then rinse with potable water after application.

### Where to use

- Freezing works
- Abattoirs
- Food processing
- Butchery / Bakery
- Kitchen / Food prep

### Features & Benefits

- Fully neutralises contaminants as a biodegradable cleaner
