

YOUR NEW ZEALAND MANUFACTURED ORGANIC SOLUTION  
TO A CLEAN GREEN ENVIRONMENT

## Grease Converter | Trap

### Where & How to use our Products

#### Start up on Installation

Industrial - C32

##### On Installation:

1. Turn tap on in sink and let cold water run for 10 minutes to fill grease converter.
2. Turn tap off and add 1 litre of Bio-Zyme Industrial down sink drain into grease converter.
3. Dose It Pump will dose 100ml at 11pm each day through pump automatically.

**NOTE 1: Do not throw Bio-Zyme Industrial lid away.** Remove lid and drill hole in lid for tube coming from pump. Use same lid on each replacement of 5L bottles.

**NOTE 2: Pre-treatment Compliance Record** to be set up and filled out by distributor. Leave original on site and send copy to Bio-Zyme.

#### Maintenance

Industrial - C32

##### After converter has been cleaned out by liquid waste contractor:

1. Turn tap on in sink and let cold water run for 10 minutes to fill grease converter.
2. Turn tap off and add 1 litre of Bio-Zyme Industrial down sink drain to kick start process.
3. Dose It Pump will dose 100ml at 11pm each day through pump automatically.

**NOTE 3: Compliance Tool** to be reviewed every 3 months and copy to be sent to Bio-Zyme.

#### Important

If you think the pump is **not working properly**:

- Unscrew screws to open the front cover of the pump.
- Check date & time - if not correct for today's date & time, reprogramme date & time using arrow buttons.
- Use Prime button to start liquid flowing.

**Bio-Zyme** is a **high performance**, non-toxic, non-allergenic and **readily biodegradable** multiple enzyme degreaser, odour controller, **cleaner/sanitiser\*** (\*only under MPI Approvals). **Environmentally & wastewater treatment systems preferable.**

#### Big Dipper

Industrial - C32

- Remove and clean basket daily. Spray basket with 60ml of Bio-Zyme Industrial per 1L of water.

#### Auto Dose

Industrial - C32

- Install Bio-Zyme Dose It Pump into power point on wall nearest to converter/trap. Initial installation requires only date and time to be set manually.
- Dose It Pump is pre-programmed to pump 100ml into grease converter /trap when kitchen closed.
- Industrial 5 litres lasts 50 days.
- If using another make of pump, please ensure dosage is changed to 100ml per day for Bio-Zyme Industrial.**

#### Features & Benefits:

- Readily biodegradable cleaner that fully neutralises contaminants.
- Environmentally-preferable.
- NZ Council Approved for use in Grease Converter/traps.
- Endorsed by manufacturers; Kings Custom Ltd, Mactrap, Clenz.
